

UGC NET Paper-1 - Previous Years Question Papers

In any UGC NET exam, you will find large number of questions appearing from previous papers. So whatever sources/books/websites/coaching you are preparing from, going through previous papers is a MUST.

So, how to make best use of these question papers? Start solving papers one by one. While solving each question, try to understand the “entire concept” not just the given “question”. For example, if question is:

Brain storming as a method can be used for:

(A) Out-of-box thinking (B) Coherent thinking (C) Generate new ideas in the area of interest (D) Critical thinking

Now do not just look for the Answer (Option C)? Also find out, what exactly are these terms? What does each term mean and what all is included in its description? Do not just solve the particular question...Learn the Concept...Questions will not repeat in next exam...Concepts will repeat...You should be equipped to handle any question on career, just because you did one question.

Please mind it that, it will take time. May be 8-10 hours for each paper.... But if you attempt all previous years' papers with this approach, no one can stop you from getting very good score in UGC NET.

Human Peritus courses have been designed with this approach only. By doing it over the years, we have reached a stage, where consistently more than 85-90% of questions in the exam, are from our course. Check the website of HUMAN PERITUS, to understand how thousands of students are clearing UGC NET with us.

Answer the following questions using the passage given below: (UGC NET 21st June 2019 Evening Paper)

All great thinkers live and move on a high plane of thought. It is only there they can breathe freely. It is only in contact with spirits like themselves they can live harmoniously and attain that serenity which comes from ideal companionship. The studies of all great thinkers must range along the highest altitudes of human thought. I have always thought that the strongest argument in favour of the Baconian theory was, that no man, however indubitable his genius, could have written the plays and sonnets that have come down to us under Shakespeare's own name who had not the liberal education of Bacon. The magnificent ideals that have ever haunted the human mind and given us our highest proofs of a future immortality by reason of the impossibility of their fulfilment here, are splintered into atoms by contact with life's realities. Hence comes our sublime discontent. A habitual mediation on the vast problems that underline human life and are knit into human destinies- thoughts of immortality, of the littleness of mere man, of the greatness of man's soul, of the splendors of the universe that are invisible to the ordinary traffickers in the street, as the vastness of St. Peter's is to the spider that weaves her web in a corner of the dome- these things do not fit men to understand the average human being, or tolerate with patience the sordid wretchedness of the unregenerated masses. It is easy to understand, therefore, why such thinkers fly to the solitude of their own thoughts, or the silent companionship of the immortals and if they care to present their views in prose or verse to the world, that these views take a sombre and melancholy setting from "the pale caste of thought" in which they were engendered.

11.) Immortality is the crucial idea constantly being explored by

- (A) Ordinary traffickers
- (B) Great thinkers
- (C) Gods who appear to the thinkers
- (D) Scientists

12.) Great thinkers are content to live

- (A) Amidst crises of civilizations
- (B) In lofty thoughts with an exceptional calm
- (C) At high altitudes in order to be away from society
- (D) With complexities of life and find solutions to them

13.) According to the passage, our sublime discontent is due to

- (A) Realization of our lack of contact with God
- (B) Acute sense of loneliness in a hostile world
- (C) Possibility of immortality through some channels to god and the inability to get hold of it
- (D) The contrast between the ideals in great literature and their opposite in the real life

14.) Baconian liberal education is

- (A) A lofty and ideal fantasy
- (B) Instrumental in making human beings rue over their destiny
- (C) An engagement with the intricacies of the day to day life
- (D) Equivalent to ancient ideas of sublimity

15.) Why do great thinkers love solitude?

- (A) To be in pursuit of the ideal in the company of immortals
- (B) To spend time in peace
- (C) Because they are misanthropists
- (D) Because the world is unhealthy for them
