

UGC NET Paper-1 - Previous Years Question Papers

In any UGC NET exam, you will find large number of questions appearing from previous papers. So whatever sources/books/websites/coaching you are preparing from, going through previous papers is a MUST.

So, how to make best use of these question papers? Start solving papers one by one. While solving each question, try to understand the “entire concept” not just the given “question”. For example, if question is:

Brain storming as a method can be used for:

(A) Out-of-box thinking (B) Coherent thinking (C) Generate new ideas in the area of interest (D) Critical thinking

Now do not just look for the Answer (Option C)? Also find out, what exactly are these terms? What does each term mean and what all is included in its description? Do not just solve the particular question...Learn the Concept...Questions will not repeat in next exam...Concepts will repeat...You should be equipped to handle any question on career, just because you did one question.

Please mind it that, it will take time. May be 8-10 hours for each paper.... But if you attempt all previous years' papers with this approach, no one can stop you from getting very good score in UGC NET.

Human Peritus courses have been designed with this approach only. By doing it over the years, we have reached a stage, where consistently more than 85-90% of questions in the exam, are from our course. Check the website of HUMAN PERITUS, to understand how thousands of students are clearing UGC NET with us.

Answer the following questions based on the passage given below: (UGC NET 24th June 2019 Morning Paper)

Michaelangelo is famous for having successfully interpreted the human body. His great achievement is that of the painting of David whose hands reach out as a sign of human capability and potential. It is assumed that the time he lived was ripe for exchange of knowledge, development in science and matured enough to advance the horizon of investigation in all fields. Renaissance humanism stressed on a serious rethink on the nature of art that focused on accurate details. In painting and sculpture, artists focused on not so casual but verifiable and minute details. Michaelangelo's paintings are no exception to it. In a study published in the journal of the Royal Society of medicine, a group of surgeons are of the opinion that the great master was "afflicted by an illness involving his joints". They have used his portraits as evidence to argue their view. During his life, he complained of what he felt to be 'gout'. Later he complained of his sore and stiff hands which the doctors would find to be natural for someone who was engaged in handmade art. The doctors found corroboration of those claims in portraits of the artist that show a hanging left hand with both degenerative and non-degenerative changes. They attribute the pain not just to arthritis, but to the stress of hammering and chiseling and note that though the master was seen hammering days before his death at an old age, he did not write or sign his own letters before his death. In recent times there have been attempts to diagnose famous artists with diseases that were not known during their time. This practice has raised many questions, especially on the issue of ethics in research. It is also inferred from authentic analysis that Michaelangelo persisted in his work until his last days. This theory would emphasize that his artistic subject defied his physical infirmities.

11.) Which actually may be concluded from the above passage?

- (A) Physical infirmities do dissuade people with capabilities from excelling
- (B) Excellence in any form triumphs over extraneous factors including physical ailments
- (C) Michaelangelo's gout and other ailments lessened his efficiency
- (D) The diseases Michaelangelo faced were due to constant hammering

12.) The controversy that the passage above refers to is whether

- (A) Michaelangelo worked under duress
- (B) Michaelangelo could contain his physical infirmity by artistic excellence
- (C) Michaelangelo submitted to disease
- (D) Michaelangelo survived different diseases before pursuing art

13.) What generalizations do people subscribe to?

- (A) Establishing facts by DNA tests
- (B) Inferring the essence of character from famous people's handwriting
- (C) Carbon dating of the hair of celebrities to draw conclusion on their physical structure
- (D) To retroactively diagnose famous artists and public figures of conditions that was not prevalent during their time

14.) Michaelangelo lived during a time that let us know that

- (A) Human aspirations are limitless and open to new vistas of knowledge
